

Vatican City pantalla solar para casa de campo

Pope Francis has unveiled a plan to transition Vatican City to solar energy as its primary source of electricity in his latest motu proprio "Fratello Sole" or "Brother Sun." The Holy Father has directed the construction of an agrivoltaic system on Vatican-owned land in Santa Maria di Galeria, located just outside Rome.

Pope Francis, a vocal campaigner for action against climate change and on environmental protection, on Wednesday ordered the construction of a solar farm to cover the energy needs of the...

Providing energy for Vatican City State. The agrivoltaic plant will make use of the Holy See's property at Santa Maria di Galeria. Located on the edge of Rome, the 424-hectare site houses the transmission facilities for Vatican Radio, thanks to a 1951 agreement between the Holy See and the Italian State.

Pope Francis has commissioned an agrivoltaic plant to be located in the extraterritorial area of Santa Maria di Galeria that will ensure the complete energy sustenance of Vatican City.

Pope Francis has initiated the construction of an agrivoltaic plant within the extraterritorial area of Santa Maria di Galeria to provide energy for Vatican City. In his Apostolic Letter titled "Fratello Sole" (Brother Sun), the Pontiff emphasizes the critical role of solar energy in addressing environmental challenges, echoing
