Did Pope Francis build the Vatican wall?

CNN religion analyst the Rev. Edward Beck likewise took to social media to counter the Trump campaign's arguments. The walls were built in the 800s to protect the pope from barbarian invasions, Beck said. I think it is pretty clear to most that the Vatican wall, which Pope Francis did not build, may just be a teeny bit different...

When was Vatican City built?

Vatican City was no exception. The first major fortification of Vatican City was completed in 852. Following an attack by Saracen raiders in 846, Pope Leo IV ordered the construction of a wall around the Leonine City, an area that covered the current Vatican territory and the Borgo district of Rome.
