

This should provide ample storage for complete system autonomy in case of an extended power outage of 3 to 5 days. Combine the battery storage with a PV solar panel system to ensure that you will have a renewable power source to keep the batteries charged.

This high-voltage battery will be compatible with a wide variety of self-consumption inverters on the market, but its use with the new Huawei SUN2000 single-phase inverters, all L1 and M1 models, is especially interesting.

We exclusively use brand new 6000 cycle cells, with automatic fire extinguishing device (15kwh), built-in battery steel belt tightening design, battery life increased by more than 20%. Ensuring superior longevity and performance compared to standard market offerings.

High-performance LPF battery pack, easy to install, free of maintenance, ready to expand from 7.5kWh to 60kwh. Assembled with lithium-ion US2000C batteries. Now the Silent Power Battery cabinet is offered with US2000C batteries only.

This 15kWh high voltage LiFePO4 solar battery is a smart and cost-effective solution for residential energy storage, with a battery voltage of 307.2V and the ability to connect up to 6 ...

This 15kWh high voltage LiFePO4 solar battery is a smart and cost-effective solution for residential energy storage, with a battery voltage of 307.2V and the ability to connect up to 6 machines in parallel, providing backup power and energy independence for homes, small businesses, farms and more.

The new modular lithium battery Huawei LUNA2000-5/10/15-S0. This high voltage battery will be compatible with a wide range of self-consumption inverters in the market but it is especially interesting to use it together with the new Huawei SUN2000 2-6KTL-L1 single-phase inverters.
