

Which solar panels do you use at Panta?

At Panta, we use top-of-the-market solar panels that are extremely efficient and require minimal roof space. We opt for Huasun solar panels and Sungrow inverters. Both companies are renowned worldwide as the leading manufacturers of products for electricity generation from solar energy.

How does Panta support my solar system?

From tailoring the design of your system to installation, maintenance and after-sales service, Panta will support you throughout the lifespan of your solar solution. Under certain conditions, you may also be eligible for a government subsidy when purchasing a solar electricity generation system.

Are solar panels a good investment in Malta?

We can't stress enough how good of an investment home and commercial solar systems are in Malta. The island has an extremely high sunshine yield, and the right solar system can drastically reduce your electricity bills.

Our products use advanced polymer technology, making them ideal for solar, UV, and harsh weather conditions. With an industry-leading 25-year warranty and UL1741 certification, they offer unmatched peace of mind and performance.

Solar resource and PV power potential maps and GIS data can be downloaded from this section. Maps and data are available for 200+ countries and regions. Please select a region or a country in the menu below. The maps and data have been prepared by Solargis for The World Bank. They are provided under

With advanced monocrystalline solar cells, the BLUEETTI PV200 solar panel achieves an impressive 23.4% efficiency, maximizing power extraction from every ray of sunlight. Built to last, its rugged ETFE coating ensures durability, while IP65 protection safeguards against scratches and water splashes for outdoor use.

In order to reduce the dependency on imported fuels for electricity, Wallis and Futuna are investing in renewable energy solutions. Solar energy has been identified as a particularly viable option, and efforts are being made to install solar panels and encourage the use of solar water heaters in homes and businesses.
