

Wernick Power Solutions offers temporary power solutions with generators, battery storage units, EV chargers, load banks, smart power distribution boards, fuel tanks, cabling, and fuel management services. They provide telemetry on generators, fuel tanks, and battery storage, ensuring continuity and reducing carbon footprint.

Key features of our load banks. Variable load simulation: Simulate loads from 1% to 110% for a comprehensive generator test. Robust security: Canopy with lockable doors provides additional security, especially in vulnerable areas. Versatile load options: Offers resistive or reactive single and three-phase load options for flexibility. Easy transport: Road towable options for enhanced ...
