

Who is H2Go power?

H2GO Power is a pioneering clean tech company, enabling clean, reliable and scalable energy storage for a wide range of commercial, industrial and residential applications, including applications where grid-based energy is either hard to achieve, unreliable, or uses considerable quantities of fossil fuel.

What is H2Go power's hyai platform?

H2GO Power will be using its AI platform, HyAI to provide optimisation of the interdependent variables required for a potential green hydrogen production facility, such as offshore windfarm sizing, electrolysis capacity, transport and storage capacity, water availability and offtake optionality.

Why should you invest in H2 Energy Storage?

Flexible shape and design Our valuable IP portfolio of innovative H2 energy storage technologies gives us the freedom to operate across multiple applications in the power and energy market. Innovation on the material front; highly porous nano-particle based smart material that combines production, storage and controlled release of hydrogen

The Sahara Desert, spanning over 9 million square kilometers across North Africa, is the world's largest hot desert. It encompasses parts of Algeria, Chad, Egypt, Libya, Mali, Mauritania, Morocco, Niger, Western Sahara, Sudan, and Tunisia. The region is characterized by extreme heat, arid conditions, vast sand dunes, and rocky plateaus. The Sahara's abundant sunlight and

Others think that Western Sahara should be declared a non-self-governing territory, and Morocco wants to establish rights over it. And the clock is ticking. If the UN doesn't get involved, soon Morocco will completely occupy Western Sahara, and the right to self-determination will be lost for Sahrawis.

H2GO Power | 9,740 followers on LinkedIn. Developing and delivering hydrogen energy storage for zero-emission, reliable and safe power supply | H2GO Power is a pioneering cleantech company. The company's current director has been the director of 1 other Irish company. H2go Hydration Company Limited has 1 shareholder. This Irish company shares its Eircode with at least 1,164 other ...

In late July, Morocco secured another diplomatic coup in a string of recent triumphs when France backed its territorial claims over Western Sahara. France joins a growing list of countries, including the United States, to champion the North African kingdom's plan for autonomy under Moroccan sovereignty. France's decision is, however, the source of much ...

H2GO Power also envisions technology suitability for long-duration energy storage for power and grid stability applications as those markets develop in the medium-term. The project expects to generate 100 additional jobs by 2026 through H2GO Power and 50 more jobs across the other partners.
