Why is nordcell a sustainable solar company?

Why Nordcell? Nordcell is spearheading sustainable solar energy production by harnessing the power of Swedish hydropower with the aim to diminish the carbon footprint associated with solar manufacturing. Committed to ethical and transparent material sourcing, our team meticulously considers the environmental impact of our operations.

Where are solar panels made?

The solar panels are manufactured in our own production facility in Jönköping, which is powered by 100% renewable energy. The solar panels do not contain any heavy glass or aluminium element, significantly reducing materials consumption. In addition, the light-absorbent CIGS layer is extremely thin, contributing to a fast production process.

Who makes swemodule solar modules?

Solar Modules produced at SweModule by Renewable Sun Energy Sweden AB are designed for various markets and applications. High quality production, combined with strictest process control, ensure maximum lifespan and the highest performance. Next generation goes of grid. Read about the fully solar-panel driven Villa.

Who makes solar modules?

Solar module factory with 120 MW capacity started by REC Solar in 2003. Since September 2016 owned by Renewable Sun Energy Sweden AB. It's one of the most modern and automated module production facility in Europe. Solar Modules produced at SweModule by Renewable Sun Energy Sweden AB are designed for various markets and applications.
