

# What to do if a photovoltaic panel manufacturer goes bankrupt

Could a solar company go bankrupt?

More bankruptcies may be on the horizon, too - in California alone, a whopping 75% of solar companies are now under financial duress, according to research from solar warranty provider Solar Insure. For consumers with solar panels, a solar provider's bankruptcy is more than just a headline; it can be the start of a huge headache.

Can a solar installer call a manufacturer if a company goes bankrupt?

So as long as the solar installer and manufacturer aren't the same company, you should still be able to call the manufacturer for warranted service on the panels. If your installer is also the manufacturer of the solar panels, bankruptcy could affect your manufacturer warranty.

How do I protect my solar panels from bankruptcy?

The safest way to prevent being left without a warranty from a bankrupt solar manufacturer is to buy your panels from a warranty-insuring manufacturer. A warranty-insuring manufacturer commits their warranties to be held up through third-party backing even if they declare bankruptcy.

Can a bankrupt solar installer transfer a warranty?

Making sure your warranty remains valid will offer you peace of mind as you navigate transferring your service to a new solar provider, if that's what you need to do. Fortunately, bankrupt installers are frequently acquired by other solar companies, allowing service agreements and warranties to continue mostly uninterrupted.

What happens if a solar company goes out of business?

If your solar company goes out of business, your O&M provider will continue to service and repair your solar energy system, just like your original installer would have, so you never have to worry about getting solar support when needed.

What if a solar installer goes out of business?

The equipment manufacturer or your solar loan financing company could help connect you with their network of installers to complete repairs if your company goes out of business. Third-party warranties and Operations and Maintenance packages are available for solar systems to help protect you if your solar installer does go under.
