

Can a microgrid Solar System be installed in Nepal?

Last month,I had the privilege of helping to install a small,off-grid solar system in Nepal. The microgrid installation was located a day's drive into the Himalayas outside of Kathmandu. As we drove to the site location,I saw less and fewer lights until I saw the literal end of the electrical grid...and then we kept driving into the mountains.

Which power inverter is available in Nepal?

AIMS Power inverters are available up to 8000 watts throughout Nepal in 12,24 &48 volt models for off-grid,mobile &emergency backup power applications.

Can aims power inverters be used in Nepal?

AIMS Power's modified sine inverters and pure sine inverters can handle any job in Nepal,and these products will do it without producing any polluting emissions. Use AIMS power inverters and renewable energy products for a mobile business,like a construction company or food truck.

How will electricity affect Nepal's future?

There was also a Nepalese crew with us consisting of translators, cooks, solar experts, and a small film crew. The film crew was there to document the changing cultural narrative of the village, and the impact electricity might have on its future. Something like electricity can bring commerce, healthcare, and stability to the growing village.
