

In Zambia's sunny climate, an off-grid 5kW solar system can generally cover a household's essential energy needs, including lighting, refrigeration, electronics, and small appliances. However, regular use of high-consumption appliances such as air conditioners may require a system with a larger capacity.

BYD Energy Zambia is the sole distributor of BYD batteries in Zambia. We have our offices at Foxdale Court Mall, 609 Zambezi Road, Lusaka, Zambia. BYD Energy Zambia is a company under PEM (Pilatus Electric Mobility Zambia Limited)
