

oping its pipeline in Italy and would only be able to share details later in 2023. Grid-scale battery storage | Cameron Murray writes about the nascent market for large-scale battery storage in ...

X-Grid Energy was founded in 2019 by a team with extensive experience in wind energy generation, engineering, renewable investment and asset operation. The company has considerable financial and technical resources at its disposal.

New regulations incentivizing the adoption of electric vehicles (EVs) and encouraging a free market that focuses on innovation show that Italy seems to be on the right path to its clean energy future.

ERLANGEN, GERMANY - 15 November, 2021 - Fluence, a global market leader in energy storage products and services, and digital applications for renewables and storage, has signed ...

Italy has gotten a lot smarter, thanks to Enel X's ambitious smart meter systems. For more sustainable practices and efficient performance with smart meter systems, Enel X developed Circular guidelines for maintenance services, and ...

We have already clarified what an energy community is: a group of people who do energy sharing thanks to a smart grid. The fundamental characteristics of such a community are the peer to ...

According to Andrea Albergoni, Account Executive for Italy at gridX, Europe's leading smart energy company from Germany, the subsidy sets a new strategic direction for Italy towards more sustainable mobility.

The grid-scale energy storage market in Italy is set to become one of the most active in Europe in the next few years having been close to non-existent until now. Research firm LCP Delta recently forecast that after annual grid-scale deployments of just 20MW in the last few years, Italy would deploy 800-900MW in 2023/2024, second in scale only ...

The grid-scale energy storage market in Italy is set to become one of the most active in Europe in the next few years having been close to non-existent until now. Research firm LCP Delta recently forecast that after annual ...

A regulatory framework put in place by Italy's grid operator TERNA has enabled Enel X to aggregate residential energy storage systems to pool their capabilities, including their use as "virtual power plants" to help balance the network.

ERLANGEN, GERMANY - 15 November, 2021 - Fluence, a global market leader in energy storage products and services, and digital applications for renewables and storage, has signed a contract with Enel-X for the delivery of two systems using the Gridstack(TM) energy storage product to provide Fast Reserve grid services for Terna, the Italian ...

Rome, January 15 th, 2021 - Enel X and IP are giving new impetus to the spread of electric mobility in Italy by creating a network of ultrafast charging stations enabling owners of electric vehicles (EV) and plug-in hybrids to fully charge their EV in around 15 minutes.

Minister of the environment and energy security Gilberto Pichetto has signed a decree allowing Italy to proceed with its energy storage capacity auction, known as MACSE, in the first half of 2025.

Italy has gotten a lot smarter, thanks to Enel X's ambitious smart meter systems. For more sustainable practices and efficient performance with smart meter systems, Enel X developed Circular guidelines for maintenance services, and created a special program to reward optimized performance as well as circular choices.

Rome, January 15 th, 2021 - Enel X and IP are giving new impetus to the spread of electric mobility in Italy by creating a network of ultrafast charging stations enabling owners of electric ...

It is our commitment today, for energy freedom and independence tomorrow Country websites; Americas ... Search Press releases Enel X Way and ACI: an agreement to advance electric mobility in Italy. April 18, 2023 Enel X Way and ACI: an agreement to advance electric mobility in Italy. Link copied to clipboard.
