

What is XRG's low carbon energy platform?

XRG's Low Carbon Energies platform will invest in the solutions needed to meet increasing demand for low carbon energies and decarbonisation technologies to drive economic growth through the energy transition. The market for low carbon ammonia alone is expected to grow by between 70-90 million tonnes per annum by 2040, from close to zero now.

What is XRG Global Chemicals?

XRG's Global Chemicals platform aims to be a top 5 global chemicals player, producing and delivering chemical and specialty products essential for modern life, to meet the projected 70 percent increase in global demand by 2050.

Will XRG international gas meet global natural gas demand?

XRG International Gas "will build a world-scale integrated gas portfolio to help meet the anticipated 15% increase in global natural gas demand over the next decade, as a lower carbon transition fuel, as well as meet the expected 65% increase in demand for LNG [liquefied natural gas] by 2050," according to ADNOC.

What is XRG's international gas platform?

XRG's International Gas platform will build a world-scale integrated gas portfolio to help meet the anticipated 15 percent increase in global natural gas demand over the next decade, as a lower carbon transition fuel, as well as meet the expected 65 percent increase in demand for LNG by 2050.

Will XRG double its asset value over the next decade?

XRG, which will operate separately to ADNOC, is expected to double its asset value over the next decade. ADNOC Group CEO, Sultan Ahmed Al Jaber, speaks during the Abu Dhabi International Petroleum Exhibition and Conference at the Abu Dhabi National Exhibition Center, Abu Dhabi, United Arab Emirates, Nov. 13, 2017.
