

How many volts is a backup box?

SOLAR.HUAWEI.COM/EU/ Technical Specification Backup Box-B0 Backup Box-B1 AC Output (On grid)
Grid connection Single Phase Three Phase Rated voltage 220 V / 230 V 380 V / 400 V AC frequency 50Hz / 60Hz AC output voltage range 198 V ~ 253 V 342 V ~ 440 V AC Output (Backup) Load connection Single Phase Single Phase Rated voltage 220 V / 230 V

How do I connect a backup box?

terminal X3 for the single-phase Backup Box. Insert the short-circuiting plate between 12 and 13 of the AC terminal X3 for the three-phase Backup Box. the port for the Backup Box to send feedback signals. 2 GND GND of the DI port Connects to the GND of the DI port. 5 GND GND Connects to the GND of the DI2 port.

What grid types does the backup box support?

Page 3 Supported Grid Types The Backup Box supports the following grid types: TN-S,TN-C-S and TT. When the inverter is in three-phase,three-wire mode,the Backup Box does not support off-grid operation.

How to check a backup box?

Backup Box checking solution: a. It is recommended that loads be disconnected before checking. b. Use a multimeter to check the connectivity between the Backup Box terminals, as shown in the following tables. c. If the conduction status of an item is inconsistent with that in the tables, the Backup Box is damaged. 2.

Can a backup box be installed outside?

When a Backup Box is installed outdoors,avoid direct sunlight. You are advised to install it in a sheltered place or install an awning over it. 2. A surge protective device (SPD) needs to be installed on the grid side of the Backup Box.

What if the backup box is abnormal?

the Backup Box is abnormal is reported when the AC power supply is disconnected. In this case,the fault cannot be rectified. The fault is rectified only after the inverter and battery are powered off. 4. If the Backup Box is used for the first time and is not used later,you must disable the off- grid mode when the inverter is running properly.

De Huawei Backup Box B0 biedt betrouwbare noodstroom voor residentiële PV-systemen. Dit enkelfase model schakelt automatisch tussen netgekoppelde en off-grid modus bij stroomuitval, en zorgt voor continuïteit van de stroomvoorziening. Compatibel met Huawei SUN2000-2KTL-L1 tot 6KTL-L1 omvormers, eenvoudig te installeren en weerbestendig (IP65).
