

What is 2G Energy?

2G Energy refers to modular CHP (Combined Heat and Power) cogeneration systems. This site, for instance, uses (2 units) of 2G Energy's avus 1,000b units, each with an output of 1142 kW. They include the 2G Master PLC (MPLC) for load sharing and future control capabilities, for optimum efficiency and resiliency. These systems utilize LNG as fuel, eliminating the need...

What distinguishes 2G as a technological partner?

2G is your companion on the journey towards an ecologically and economically sustainable future. Throughout the world, our innovative energy solutions reliably assist you in reaching your goals.

Is 2G a publicly traded company?

Founded in 1995, 2G Energietechnik GmbH, is listed as a publicly-traded company on the Entry Standard of the German Stock Exchange. The stock was originally launched with the name "2G Bio-Energietechnik AG" and a focus on the manufacturing of biogas cogeneration plants.

What happened at 2G Energy AG's annual general meeting?

On June 4th The annual general meeting of 2G Energy AG took place in Ahaus. In front of around 200 participating shareholders, the... Fundamentally restructured processes, standardized products: Kaizen approach creates sustainably dependable, rule-based structures....

Do you wonder how it is possible to reconcile your current energy production requirements with those of tomorrow? 2G assists you in finding the right answer: from the first consultation over ...

2G Energy offers the most efficient and reliable energy solutions because of our highly engineered modular design and focuses on making the highest quality product with outstanding service. With over 8,500 systems installed worldwide, our customers confirm the quality and performance of 2G products are the backbones of our international success.

2G Energy Ltd is an internationally leading manufacturer of combined and heat and power plants (CHP) for the decentralised provision of power and heat based on gas motors driven by natural gas, biomethane, biogas, sewage gas, landfill ...

Do you wonder how it is possible to reconcile your current energy production requirements with those of tomorrow? 2G assists you in finding the right answer: from the first consultation over the proposition of a customized solution to the operation and maintenance of your CHP system.

2G Energy is one of the world's leading manufacturers of combined heat and power generation systems (CHP) providing a decentralised supply of heat and electricity using reciprocating piston engines that run on

hydrogen, biomethane, biogas, sewage gas, landfill gas or natural gas.

2G Energy Ltd is an internationally leading manufacturer of combined and heat and power plants (CHP) for the decentralised provision of power and heat based on gas motors driven by natural gas, biomethane, biogas, sewage gas, landfill gas, or hydrogen.

Do you wonder how it is possible to reconcile your current energy production requirements with those of tomorrow? 2G assists you in finding the right answer: from the first consultation over the proposition of a customized solution to the ...

2G Energy AG is an internationally leading manufacturer of combined heat and power system (CHP) for the decentralised provision of power and heat on the basis of gas motors driven by natural gas, biomethane, biogas, sewage gas, landfill gas or hydrogen.
