

Hayleys Solar is the most trusted name among solar power companies in Sri Lanka, offering renewable energy solutions and energy storage systems for a wide variety of domestic, commercial and industrial requirements.

To date, we have successfully completed over 150MW of rooftop solar installations island-wide, making us the largest solar-based Engineering, Procurement, and Construction (EPC) company in the country.

Over time, solar systems can encounter issues that affect performance, such as wiring faults, battery degradation, or inverter malfunctions. Our diagnosis and repair services are designed to quickly identify and fix these problems, minimizing downtime and ...

With its highly skilled team of engineers, the company leads the transformative efforts of both commercial and industrial sectors in adopting solar power solutions. Hayleys Solar prioritizes maintenance efficiency, energy and resource optimization, and CO<sub>2</sub> reduction in its solutions.
