

Globally integrated energy services with 30 years of experience and extensive knowledge... Energy company of the future which provides alternative solutions on every field from solar energy to electricity vehicles, electricity power plants to EV charging stations, from project development to ...

Zorlu Energy, which aims to be a future energy company, gives priority to designing next generation solutions such as dissemination of electric vehicles. It is also our priority to reduce environmental footprint as well as vital issues such as conservation of natural resources and energy supply security.

Zorlu Enerji is a company that provides alternative energy solutions. It specializes in project development to management in fields such as electricity generation, distribution, natural gas trade, construction of power plants (engineering, procurement, construction - EPC), operation and maintenance, electric vehicle (EV) charging stations, etc.

Zorlu Energy Group continues to grow both in and out of Turkey with a particular focus on renewable energy - mainly geothermal and solar energy. In line with its vision to become the energy company of the future, Zorlu Energy Group also invests in new technologies, such as smart energy management systems and smart grids, and in developing ...
